

DOCTORS' TRUST IS CHARGED AGAINST AMERICAN MEDICOS

Eclectics, In Convention, Declare Rivals Seek to Control Practice.

Delegates to the convention of the National Eclectic Medical Association at the Shoreham this morning heard President A. F. Stephens, of St. Louis, make a vitriolic attack upon the American Medical Association. President Stephens' annual address was largely devoted to this topic.

In his concluding chapter, which related to public health, President Stephens attacked the proposition to establish a national bureau of health along the lines which he said the American Medical Association plans.

"In their legislative dreams the political managers of the American Medical Association," said the speaker,

"could see themselves in absolute control of medical practice in the United States. With deep satisfaction they counted the gold that was to come into their hands from the public treasury. Greedy for power, with their palms itching for the gold, these politicians have stooped to every political artifice to gain their ends."

He urged the members of the National Eclectic Association not to join "allopathic societies."

Besides President Stephens' paper, the general session this morning heard a paper on "Climatology" read by J. A. Munk, M. D., of Los Angeles. Following this, section II of the convention, on the practice of medicine, convened and papers on spinal meningitis and other ailments were read.

It was announced that the delegates would go to Mt. Vernon this afternoon unless rain prevented. Sessions of the convention will be held until Friday, when officers will be elected and installed.

Police Are Searching For Two Housebreakers

Efforts are being made by the police today to get some trace of two white men discovered yesterday afternoon in the apartment house at 1422 Rhode Island avenue northwest.

The men were found in the hallway by the janitor. One of the housebreakers drew a blackjack and struck at the janitor, but did not hit him. The men then fled from the building. Rooms in two apartments had been ransacked, but nothing stolen.

are scores of children without a chance, during much of the summer, for good fresh air and an opportunity to play. The public playgrounds are doing a great work for the children of the cities, and I believe in making appropriations for them.

"A year or so ago I went over all the playgrounds in the District, and the sites which were proposed for playgrounds, and I found that they were doing much to add to the health and happiness of hundreds of little children of this city."

"I hope that the citizens of Washington will give a generous support to the playgrounds, and if the baseball game Saturday draws a big crowd, we will be pleased, because the money is to go to the playgrounds."

Speaker Clark will attend the game, and will throw the first ball into the diamond.
